Vision, Mission and Key objectives

Basic aim is establishment of APHO for proper implementation of IHR at the international airport to control and prevent international spread of PHEIC.

Vision is of a world safe and secure from infectious diseases threats by prevention, rapid detection, transparent reporting and mitigation of outbreaks through interconnected global network.

Major theme of response is early warning system, creating awareness among people, screening at POEs, vector surveillance and intersectoral coordination and collaboration.

Function and Duties

- Thermal Screening of International Passengers for COVID-19.
- Surveillance of international passengers and crew for yellow fever disease.
- Public health clearance of dead body/human remains.
- Assistance in medical and flight emergencies.
- Periodic monitoring of vector control activities to ensure that aedes aegypti index is regularly maintained as per the prescribed international norms.
- In case of public health emergencies outbreak: activation of PHECP, screening, coordination with national/state/local agencies and reporting of data.
